## Competitions

The provincial competitions are very important in the development of our skaters. Each competition has been successful during the past season as we have noticed an increase in the number of participants.

A competitions coordinator has been assigned by the Fédération which has eased the tasks of the organising committees. Thank you Denis Beaudoin for a job well done!

For the Québec Games Regionals, some pilot projects have been organised so the new judging system could be utilised. Some regions had to be grouped to make this possible. We are pleased to announce that the majority of regions (14 out of 18) have participated in the project. Some adjustments will have to be made within some regions but the experience is mostly positive. Skaters have appreciated being judged by the same system used at the provincial finals. We hope that all regions will be in a position to offer this service to their skaters.

You will find below information concerning each provincial competition:
